

# Integrating Technology into Project-based Learning

## References

### **Project-based Learning**

<http://www.project-approach.com/> The purpose of this web site is to provide readers with resources to enable them to carry out projects wherever they may work with children. The site is intended to make available some accounts of successful projects undertaken by teachers working with children of different ages and cultures in different parts of the world.

### **Professional Development**

[www.tech4learning.com](http://www.tech4learning.com)

Tech4Learning professional development helps educators transform education from "teachers telling" to "students doing," focusing on software and hardware tools that support project-based learning. Tech4Learning creates professional development opportunities which are carefully designed and implemented to provide continuity between what educators learn and what goes on in the classroom. They also sell training products, software and technology integration books.

### **Copyright Free Graphics**

[www.pics4learning.com](http://www.pics4learning.com)

Pics4Learning is a copyright-friendly image library for teachers and students. The Pics4Learning collection consists of thousands of images that have been donated by students, teachers, and amateur photographers.

### **Storyboarding/ Graphic Organizers**

[www.inspiration.com](http://www.inspiration.com)

INSPIRATION® is a powerful visual learning tool that inspires students to develop ideas and organize thinking. Inspiration's integrated diagramming and outlining views work together to help students comprehend concepts and information. The Diagram view makes creating and modifying concept maps, webs, idea maps and other graphical organizers easy. In Outline view, students can quickly prioritize and rearrange ideas, helping them create clear, concise essays, reports and more.

### **Rubric Development Activity**
